

Attention Alumni

Are all the Banquet Invitation cards sent out? If not, let's make an attempt to have them on their way this week. Remember, there are just three more weeks till the big evening, and according to all reports, it really will be. Let's all make it a memorable affair.

Each one of us should give thought to forming a permanent association. It's something Grayling needs. Other towns have it and we should want it. We'll elect officers at this year's banquet to carry on for the coming year.

Some very good workers are on our nomination list which we will present to you. A program is being lined up by our committee and we guarantee you a wonderful meal served by Carol Wert.

Tickets have been given out to the class representatives. Get yours and make sure other members of your class have theirs. It will be interesting to note which class has the most members present. Last year, it was the Class of '33. Which one will it be this year? That's up to you.

C. Sorenson.

Grayling Band In Northern Mich. Festival

The Grayling High School Band will participate in the Northern Michigan Festival this Thursday, May 8th. Grayling is due to perform two numbers at 2:00 p. m. Other schools that will participate are:

Charlevoix Junior Band and the Petoskey 8th grade Band and the following high school bands: Central Lake, Elk Rapids, Boyne City, East Jordan, Pellston, Kalkaska, Grayling, Charlevoix and Traverse City.

There will be a parade of all the bands at 3:00 o'clock, a massed band rehearsal at 4:00 and concert all bands at 7:30 to 8:45. The bands will not be rated, but will receive criticism from adjudicator Roy Miller, director of bands, Wayne University. The public is cordially invited.

Kiwanis Club Notes

The regular weekly meeting of the Kiwanis Club of Grayling was held Monday evening at the Lone Pine Inn at which a wire recording was made. The program was put on by Floyd Davis who brought a wire recorder to the meeting.

Each member present spoke a few words and the entire recording will be sent to Wisconsin to Rev. Herbert Sabree, former member and secretary of the club. On a recent visit here, Rev. Sabree said that he missed the club meetings very much. The recording was made to forward to him and he in return will send back an answer recorded on wire.

Michigan Mirror

Non-partisan government at Lansing is functioning as usual this spring—vetoes from the governor, accusations from legislative leaders, more unbalanced budgets, more confusion and almost daily political fireworks.

When the voters of Michigan choose Republicans to fill seven out of eight state administrative offices and to dominate the state legislature, they also picked Democrat G. Mennen Williams by a slim margin to serve as governor. The pattern is familiar by now.

Every year Democrats Williams has voiced hope that the Republican legislature will try to cooperate.

And every year it's like putting two cats in a croaker sack. They just tear each other to pieces. It's an almost untenable situation. The result?

We are now faced with an unbalanced budget. The legislature, after heaving and tossing, came up with its \$333 million budget for the coming year, some \$32 million more than the present income will produce. Then the lawmakers

Dr. J. F. Cook Elected As New Grayling Winter Sports Head

Plan For Park Rebuilding

Dr. J. F. Cook of Grayling was elected as president of the Grayling Winter Sports Park, Inc., at a meeting held at the Shoppington Inn last week. Dr. Cook will head the group during this summer and on through next winter's regular sports season.

The election was held in the spring this year in the hopes that some planning and work at the park could continue through the summer leaving a smaller burden to handle next fall before the winter sports season opens. The new president will also be available to work with the Conservation Department officials when work

"Signal When You Turn"

Chief John A. Papendick announced the beginning of the fourth week of the safety campaign against left and right turn violators who are causing accidents.

As indicative of the public interest in the "Signal When You Turn" program the Chief said he has heard that many motorists have complained that the slogan should have been "Signal BEFORE You Turn". According to the Chief it is important that turn signals be given far enough ahead so that they give advance warning to other motorists and pedestrians. In fact, it is often necessary to give a hand signal before turning into the correct lane prior to making the turn at the intersection.

Common courtesy, as well as safety, is involved in making a turn, according to Chief Papendick. "A person who fails to signal before turning left not only produces a hazard but he may hold up the car behind unnecessarily," the Chief said. Another case is where a driver has to wait at a signalized intersection before making his left turn because of oncoming traffic and notices another driver behind also waiting to turn left. In this case he would be common courtesy for the first car to pull up into the intersection a little farther to give the second car room so that they could both complete their turns when a gap in traffic appeared.

In conclusion the Chief said, "Signal When You Turn really means Signal BEFORE You Turn." Please cooperate with our department and the Michigan State Safety Commission.

Confidentially Speaking

The Crawford County residents mean business when it comes to cancer. The results show it.

Our new Loan Closet at Mercy Hospital will soon be available to the public for home use bed, chairs for disabled, crutches and bandages.

Through the fine co-operation of the public and kind consideration of volunteers in collecting the drive went very much over the top.

That means a nest egg.

If cancer is detected sufficiently early, treatments at Detroit, with transportation included, should be paid for by our Crawford County Cancer Society. That is the faith we have in the X-Ray Deep Therapy treatments given at Detroit Harper Hospital.

While at the hospital there, information was given the writer that the County here was fortunate in having well trained doctors, whose offices might well be called early detection centers for cancer and furthermore the most promising in the state. Next time look at the framed diplomas on their walls.

Remember "early detection, early treatment, early cured."

Individuals, the cost of treatment is high, collectively we help each other by our Cancer Fund. After treatments check-ups in Detroit are free.

Evidently Crawford County has prepared for the future.

Contributors in Crawford County, the Cancer Society here salutes you.

Watch for amounts in the Avalanche, the following week.

Mrs. Emma MacAuley, Commander.

Grayling Adventists To Attend Mio Meeting

No services will be held by the Seventh-day Adventists in Grayling Saturday, May 10 as all will be attending the Mio 11:15 a. m. and 2:30 p. m. services at Mio to hear a full-blooded Indian, Mrs. Leonard Tawney, of Newaygo, Michigan relate her life's experiences in the Ottawa Indian religion and how she was converted to the Christian religion.

Mrs. Tawney will relate how she was married to an old Indian brave while only 16, how she was supposed to have been her dead grandmother reincarnated, something of the paranormal and superstitions of the Ottawa religion, and many other interesting experiences.

Any persons interested are invited. If desiring transportation phone 4988.

4-H Club Achievement Day, May 9th

The annual Crawford County Spring Achievement Day for 4-H Club work will be held May 9 at the Frederic School. The public is invited to attend this annual event. There will be exhibits in Clothing, Handicraft, and Conservation. The Program will start at 9:30 with a movie for 4-H Club members and Leaders. The afternoon program will start at 12:30 and will consist of the State Review, and Presentation of Awards. Following this there will be a 4-H Club Talent show. The winning act in the talent show will compete at Gaylord in July for a trip to the State 4-H Club Show.

Also, on the afternoon program will be three 4-H Club demonstrations: one on good grooming from the Lovells Club, and one on Conservation and one on Safety from the Grayling Club.

Parents are especially urged to attend this achievement day program.

Prescott Seeks Re-Election

Charles T. Prescott announced today he will be a candidate for re-election to the State Senate from the 28th District, comprising ten northeastern Michigan counties.

Prescott, who operates a cattle ranch in Ogemaw County, will run on the Republican ticket. In making public his plans, Prescott promised to continue his vigorous fight for lower taxes, which can be accomplished by economizing in government.

"Everyone in favor of adequate services and is willing to pay for it," he said. "But no one wants to be taxed and taxed to finance the operation of needless functions created merely to satisfy pressure groups."

He said he was only partially in favor of the broad recommendations made by the Commission for Reorganization of Government, sometimes known as the "Little Hoover Commission."

"Where this commission has suggested a consolidation of certain state agencies and the elimination of others for economy reasons, the program will have my complete support," he said.

"But I am definitely opposed to any program which places more power in the hands of a few bureaucrats and entrenches them on the public payroll. I believe in leaving the major decisions of government in the hands of the voters."

In serving the people of his district, Prescott has insisted on a balanced state budget supported by a reasonable tax structure.

"I do not believe in deficit spending and I do not believe in building a huge cash surplus," he explained. "I believe in running the state as a private business, which means when there's no cash in the till, there's no spending."

As a member of the Senate, Prescott has interested himself in the problems of the tourist industry and is now serving as chairman of the Committee on Conservation. He is a member of the Agriculture, Public Health and Senate Business committees.

A native of Michigan, he was born in Tawas City and attended the public schools there and in Bay City, later attending Western Reserve University. He is married and the father of four sons and one daughter.

Golf Club Auxiliary To Meet

There is to be a meeting of the Golf Club Auxiliary Monday evening, May 12, at the club house at 8 o'clock. All members and potential members are urged to attend.

This is an important meeting as plans for the coming season will be discussed and officers elected. Cake and coffee will be served.

Rites Held For Moses Woods

Funeral services for Moses Woods, 78, a long-time resident of Grayling, were held at the Sorenson Funeral home here Saturday morning at 10 o'clock. The Rev. Fr. John Breitenstein officiated and interment was in Elmwood Cemetery here. Pallbearers were Joe Kasper, Leo Purvis, Wesley LaGrow, Zens Ziebell, Gordon Pond and Maurice Gorman.

Mr. Woods, who had been in ill health for the past eight years, was born in Belleville, Canada, June 15, 1872. He married the former Miss Lydia LaFave, Oct. 12, 1891 in Carleton Place. He had resided in Grayling for about 50 years, working in the sawmills and lumbering for years until ill health forced him to retire. He lived in Bay City previous to coming to Grayling. He was a member of St. Mary's Catholic Church of Grayling. Surviving are his widow; five sons, George and Elmer, of Mt. Clemens, and Rollie, William and Charles, all of Detroit; 11 grandchildren, and several great-grandchildren.

Elizabeth Matson Attains Professorship

Congratulations are in order for Elizabeth Matson daughter of Mrs. Elmer Matson, as she has been promoted to a full professor. This is the very top in the teaching profession and a rank that very few women attain.

"Libby" is an instructor in the College of the Pacific at Stockton, California.

Two other honors were also bestowed on Professor Matson almost simultaneously with her promotion. She was asked to run for the presidency of the California Association of Health, Public Education and Recreation in Los Angeles (3,000 members) and also asked to be a special consultant for the County of Liberty, both honors of which she accepted.

Grayling Hi Club Visits Fire Dept.

On Friday afternoon the Grayling High Conservation Club visited the local Fire Department to learn about its organization, equipment and operation.

Mr. Robert LaMotte spoke to the club and answered questions relative to the department.

This excursion was made in connection with a Home Fire Prevention Project carried on by the club this semester. Each student made out a Fire Prevention Report and an Inspection Report as part of the study.

The members of the club wish to thank Mr. Davenport and Mr. LaMotte for making this field trip possible.

Candidate Puffer Denies Rumor

R. C. Puffer of Grayling, candidate for the Republican nomination for Congress in the Tenth District spiked a rumor that apparently has been circulated in the district. The first one that he is a front for the dyes. The candidate said: "I am not a front for any group nor have I been approached by any group seeking any special interest. However, I have always been a teetotaler and have been opposed to all forms of alcohol. I will vigorously uphold the law which includes the sale and consumption of alcoholic beverages in many parts of the country."

"At the present time the issue lies mostly with the states and local communities. It is one of enforcement of present laws together with a program of education with reference to its nature and effects. I am making this race for Congress because I believe we have a condition of Moral decay which threatens the very life of our free institutions and if elected to Congress I will vigorously oppose all forms of Social Evil," the candidate concluded.

The Grayling Candidate has been actively campaigning in the field and has made several radio appearances as well as talks before groups within the district. His tour of the District will reach every city, town and hamlet before the August primaries. He reports that he is making good progress and is picking up support in every community where he has visited.

EMBARK FOR DENMARK

Mr. and Mrs. Wilhelm Raee are to leave today for New York City, where they will embark aboard the Gripsholm, a Swedish American liner, at 10:30 on Saturday and sail to Gothenburg, Sweden.

They plan to visit Mr. Raee's sister and brother and also a number of relatives of Mrs. Raee's, some of whom she has never seen. They expect to be gone until the middle of August.

Twelve ladies, friends of Mrs. Raee's gave a "Bon Voyage" dinner party in her honor at Sorenson's Restaurant, Tuesday evening of last week. Mrs. Laura MacLeod presented her with a gift on behalf of the group. Cards were enjoyed later. Mrs. Carl Sorenson held high score and Mrs. MacLeod second high.

On Sunday members of the Raee and Hanson families met for dinner at Clancy's to wish Mr. and Mrs. Raee a pleasant journey. Present were Mr. and Mrs. Jess Sales, Christ Johnson, Mr. and Mrs. Ron Hanson and Karen; and Mrs. Marius Hanson, Mr. and Mrs. Clement Blaine and son and Mrs. Hansine Hanson.

The Home Extension Club met at the home of Mrs. Stanley Hummel last Tuesday afternoon, with 12 ladies present. Mrs. Arthur Howse gave the first part of the lesson on "Color in the Home." The next meeting will be on May 13 at the Town Hall.

May Day was worthwhile. Several people turned out with plants, shrubs, bulbs and trees to plant in the Town Hall yard. This was a good start on this community project to beautify our hall grounds. In the evening Mr. O. Walker and Mr. J. Ostrander provided the entertainment which was enjoyed by all.

Mr. and Mrs. Mike Hyler spent a few days at their cabin here. Mrs. Jack Feldhauser drove to Traverse City Tuesday.

Victor Parsons of Royal Oak spent the week end with Mr. and Mrs. Oscar Parsons.

Mr. and Mrs. Archie Hawse went to Petoskey Saturday. Fred Anderson of Flint is spending some time at his place here.

Mr. and Mrs. Stanley Hummel and children spent Sunday as guests of Miss Zelma Ferguson at Petoskey.

Mr. and Mrs. Roy Johnson entertained Tony Clark and family over the week end.

The T. N. T. Club have planned a dance for this Saturday, May 10. Come and bring your friends.

On Friday, May 16 at 8 o'clock there will be a 4 H organization meeting at the Town Hall. Let's have all the boys and girls from 10 years and up present, also any grownups who are interested.

From where I sit... by Joe Marsh

As a Matter of Fact...

Out of all the newspaper and magazine columns I read, the ones I enjoy most are those that pack in a whole lot of facts—unrelated facts, but each one an interesting bit of information in itself.

These columns go something like this: "Did you know that humpback whales are addicted to snoring? That bees have been bred with red, brown, and buff-colored eyes?"

"Did you know that lead can be converted to gold—at a cost of \$1,000,000 an ounce? That a 655-pound fat girl went on a diet and lost 400 pounds in 12 months? That

a chrysanthemum has been developed that smells like a violet?"

From where I sit, maybe I'm a kind of "Johnny-one-note." My own columns always seem to revolve around one idea—a plea for me to make sure we respect the other fellow's rights—like the right to vote for your own choice or the right to enjoy a glass of beer now and then. I may not be in style, but I believe my one fact in worth repeating—and remembering!

The "Small Man" Pays

There was a time when the average man and woman didn't have to do too much worrying about the cost of running the government. In that long-dead era, it was commonly said the rich paid most of the bill anyhow, and the rest of the people got the benefits practically free.

Anyone who still believes that, lives in a world of sheer fantasy. We have finally reached the point where the cost of government is so huge that even the confiscatory taxes paid by the people in the high-income groups hardly make a dent in the total—and the people of small and moderate means must carry the bulk of the burden.

Early in 1951, Secretary of the Treasury Snyder presented some revealing facts to a House Committee. They concerned the distribution of surtax net incomes—which is the income left after deductions for personal exemptions and dependents. In that year, Mr. Snyder said, surtax net income totaled \$90,000,000,000. Of this, \$82,000,000,000 was in the brackets of \$10,000 and under \$62,000,000,000 being in the under \$2,000 classification) and only \$8,000,000,000 was in the brackets above \$10,000.

This should certainly take care of the illusion that we can keep on meeting the cost of government by "soaking the rich." If we expropriated every nickle of income the rich have, the resulting revenue would carry the government for only a matter of weeks. It's the "small man" who must pay—as ten of millions learned last March 15. And it's the "small man" who has the most to gain from efficient, economical government, and reduced taxes.

ALWAYS BE CAREFUL DRIVING

It makes
each drop of gas
say uncle

ACCORDING to combustion experts, there's as much energy locked in a drop of gasoline as there is in a drop of nitroglycerine.

But the problem is to put that energy to work.

So Buick engineers aren't content just to mix that drop with air and touch it off. They've designed an engine that brings it catapulting into a cylinder head where it strikes a turbo-top piston—gets whipped into a churning, swirling ball of tight-packed energy.

Then it's fired. And when that happens, a drop of gasoline certainly lets loose power.

This isn't something that happens in a "car of the future."

It happens in a Buick Fireball 8 Engine today. It's a high-compression engine. It's a valve-in-head engine. But it's also a Fireball in performance as well as name.

And it puts extra power under the hood—and extra miles in the fuel back in the gas tank.

Now, power is great, but what goes with it?

Mister, that's something you ought to find out—and soon.

What goes with it is an automobile as sweet-handling, eager and willing as anything that ever made your pulse leap to a faster beat.

It's a car that seems to know what you

want it to do—true and sure in its course on a straightaway—beautifully balanced on curves.

It's a car with Dynaflo Drive* to feed power with infinite smoothness—and a road-hugging levelness of ride that took a million in cold cash to perfect.

And it is, with all this, a very tidy bargain. Why not price it, drive it, know it for yourself? We'll be glad to arrange a demonstration.

15th Boys State Opens June 19th

Arriving by bus, train and family car, 1,000 Michigan youth will assemble June 19 on the Michigan State College campus for the 15th annual Wolverine Boys State sponsored by the American Legion.

Called the mythical 39th state in the Union, the nine-day program is slated to run from June 19 to 27. Each boy will be assigned to one of two fictitious political parties for experience under both the convention and caucus systems.

City and county governments will be set up under a Constitution patterned after Michigan's. After elections are held, all further business will operate on a non-partisan basis.

A "Boy-Governor" will fill various appointive posts with the approval of the "Senate." These posts correspond closely to those

of Michigan.

While sponsored by the American Legion, other civic groups are invited to sponsor outstanding high school students through Legion posts at a cost of \$35 for the nine-day session.

Opening day activities will be highlighted by addresses from Michigan's Governor Williams, by MSC President John Hannah and Department Commander Thomas Rounell.

On Friday, June 20, the boys will hold city elections, followed Saturday by county and state elections. Later in the day they will set up mock governmental organizations.

Dwight H. Rich, president and camp director for Boys State has arranged a program which will keep the boys busy from 7 a. m. until 10 p. m. when two buglers will sound taps.

Besides the law classes and practical government lessons throughout the day, MSC officials have arranged clinics in sports to round out the brief education period.

High Water Havoc
High water is playing havoc with fish and wildlife throughout Michigan. The constantly rising underground water table is causing lakes, rivers and streams to maintain extraordinarily high levels which may be expected to continue far into the summer, and the effect on fish, game and you, Mr. Sportsman, is far-reaching!

Fishing Holes Move
Your favorite trout pools may have moved a few hundred feet—or they may have disappeared altogether. Spring freshets don't have too much effect on the contour of river bottoms, but when flood stages continue for any length of time, as they're doing now in Michigan, there'll be some changes made in still, sand and gravel move like straw in a hurricane when high water hits. The old fishing holes you've known for years fill up. New channels are cut, especially near a bend in the stream. Bank erosion takes place destroying those hot-weather hiding places for trout. And, worst of all in trout streams, some of the larvae of flies, clinging to stones along the bottom and waiting to hatch later in the season may be washed away and destroyed. This obviously can have a profound effect on fish food.

Spawning Habits Changed
Persistent high water in lakes will bring about drastic changes in spawning areas for pike, bass,

bluegills and many other species. Pike, in particular, will spawn in drainage ditches and swamp lands tributary to lakes—areas that might have been high and dry a year ago. This year's record-breaking smelt run made it possible to dip practically anywhere along the shores of the Great Lakes because the silvery little fellows found countless new spawning grounds in hundreds of brand new drainage outlets created by flood waters. One Saturday night recently it was said that on U.S. 23 between Omer and Tawas—a stretch of a good 20 miles—cars were parked in a continuous line on both sides of the highway, while their owners caught smelt along the entire Lake Huron shore. Almost 10,000 people dipped in the Tawas area alone on a single night! The take-home payoff for dipper will reach an all-time record this spring.

Feeding Grounds Move
Look for bass, wall-eyes and bluegills in different parts of the lake this year. While weed-beds remain at the same old stand, minnows will move closer to the new, flood-created shore for the protection of short, thick grassy beds. In the late evening and early morning hours this will be the happy hunting ground for their enemies. And there, Mr. and Mrs. Michigan Fisherman, you'll find the big ones that get away, but never too far to talk about forevermore!

Mort Neff's "Michigan Outdoors" television show may be seen every Thursday at 6:45 p.m. on stations WWJ-TV, Detroit and WJIM-TV, Lansing.

Your Milk

During our careless days with forest fires, we ruined growing timber, the countryside and our beautiful lakes and streams, until we had nothing left but water. At this point, we faced our darkest hour. There was one hope still left and one only.

That was the Conservation Department. They have put an end to large fires. We learned the hard way...when timber burns everybody loses. Without a doubt, the Conservation Officer has done more to put us back on our feet than all other forces combined.

Farmers at this time are busy preparing for your year-around milk. It takes months and sometimes years to supply you with year-around milk. Crawford County produces milk sold by Hunter's Au-Sable Dairy.

It Will Be in Demand When
It's 10 Years Old!

Take a new Cadillac home with you—use it with
common prudence and give it reasonable care—

—and ten years from today, there should be many,
many people anxious to drive it and call it their own!

The soundness of this prediction is attested on
used car lots throughout America. Every day, buyers
are taking possession of Cadillacs built before the war
—and are doing so with pride and anticipation.

There are many and vital reasons for this enduring
value of a Cadillac car.

First, of course, is quality. Cadillacs are built to
the highest standard it is practical to enforce in the
production of a motor car.

The watchword and the goal of those who de-
sign and build for Cadillac are one and the same—
how good and how enduring can this car be made?

Year in and year out, the search for improvement
goes relentlessly ahead.

Small wonder that the car keeps its youth and
its performance—far, far beyond the normal span.

And then there is its sound and enduring beauty.
Cadillac styling is a development—with continuous
improvement and refinement. Older Cadillacs, of
course, are not to be mistaken for the current ones;
but, regardless of age, they are still Cadillacs—and
are distinguished and dignified in their own rights.

And then, of course, there is the wonderful Cadillac
name—which never loses its significance, no matter
how old the car which bears it. Year for year and age
for age, a Cadillac is always aside and apart from
other cars.

It is not unusual for a Cadillac to pass through
four or five or even six different families—each one
owning it with pride and driving it with pleasure.

Think of this when you buy your next car. If you
get a Cadillac—there can be no doubt that others
will be eager to own it when it has served you the
normal span.

Why not come in—and see and drive this wonder-
ful car? We'd be happy to welcome you any time.

NEW POLIO DISCOVERY . . . Dr. David Bodian (left), John Hopkins University, and Dr. Dorothy Horstmann, Yale, presented new evidence at the meeting of the federation of societies for experimental biology at New York indicating that the paralytic form of polio should be easily preventable by immunization. They described vaccine experiments on chimpanzees and monkeys that were so successful that tests will be carried out during coming polio season to determine effects on humans.

presented tax bills which would bring in an estimated \$32 million.

The governor, who has been futilely kicking the wall for a 4 per cent corporation tax for three years, vetoed the Higgins used car tax bill which would have poured \$12 million into the empty coffers. This tax would have put a 3 per cent tax on used cars and cut off \$3 million now diverted to schools.

Governor says it is unfair. Legislature smirks at Williams' corporation tax, his FEPC bill, his additional welfare proposals and

say they're unfair. And no one wins.

Speaker of the House Victor A. Knox (R. Sault Ste. Marie) as quoted before in this column says: "The legislature has had no help at all from the governor in meeting the crisis. He wants to spend and spend . . . because he thinks it is smart campaigning to promise the people more and more. Never does he tell people that they must pay for the cost of state government . . . he tries to make them believe they are getting something for nothing."

The governor replies in kind, saying, "The G. O. P. program is based upon the recovery of funds now being returned to local units of governments and more consumer taxes." And he says he'll veto any tax bills following those lines.

And by gum he has. Republicans say the governor has sold out to the C. I. O. Governor says Republicans are backed by "big business."

Then the affair at Jackson blew up like a tin can on the Fourth of July.

Republicans say Williams caused the state to reach the nadir of public respect by being so wishy-washy with the rioters. Governor Frank Murphy took the same attitude with the C. I. O. sit-down strikers at Flint in 1937. Lives were saved, he said.

Governor says he was protecting the kidnapped guards.

This could go on for days. Just what is the answer? Outside of an election there apparently isn't any. The two camps right now are sitting around the council fires plotting war strategy—and they will continue to do so until there is a new governor or a Democratic legislature. Non-partisan government is a sorry mess.

Salary and wage costs to some 25,500 state employees and officials hit \$103,614,469 in the last 15 months. In the same period of the first Williams administration there were \$88,431,465 and 10 years ago the total was barely \$42 million.

But the legislature promises that by the end of the fiscal year there will be from 800 to 1,000 fewer state employees.

The agricultural department warns that Michigan may face another invasion from forest tent caterpillars this year. Last year more than 900,000 acres were stripped by the pests. Could be worse this year. Mostly the Upper Peninsula suffered, although some of the caterpillars appeared around Grand Rapids and Battle Creek.
